

Technical Support for Housing

MASHAL has provided survey services to numerous builders who wanted to undertake slum rehabilitation projects in the slums of Pune and PCMC. MASHAL has not participated in the beneficiary consent tasks but has chosen to remain the technical support partner. These surveys have not only equipped MASHAL with rich data sets but have also given the receiving organization's projects financial viability. MASHAL has also provided architectural services for the Ramtekdi slum rehabilitation project of the Parathama Group, covering 2300 households, and for the Janta Vasahat slum rehabilitation project of the Parmar group, covering 7000 households.

Ram Tekadi Project Technical Support MASHAL provides technical support to SRA projects. SRA projects work to rehabilitate hutment dwellers and encompass transit camps, infrastructure, amenities and rehabilitation. MASHAL has been offering architectural support to the Ramnagar, Ram Tekadi project. The project covers 28,996 square kilometres and constitutes building 659 tenement units. MASHAL conducted cadastral and socioeconomic surveys, as well as architectural design for the project.
